## Old Age Pensioners Meet

The monthly meeting of the Coleman Old Age Pensioners Association was held as usual in the Elks hall on Monday, February 3rd.

The meeting was opened with the following officers in their chairs: President, Mrs. Nora Goulding; Secretary-treasurer, Mrs. Ethel Kostelnik; 1st vice-president, Mr. E. Hill (Graftontown); 2nd vice-president, Mr. Beddington.

The secretary announced that 94 members were present.

The minutes were read and adopted. The charter was then draped in honor of Mr. Charlie Makin, the members singing "Abide With Me", while Mrs. Spivek accompanied at the piano.

Bills were presented and dealt with. Several members were reported sick. Mr. Morency of Blairmore extended an invitation to all members to their meeting on Wednesday, February 5, as they were going to reorganize their branch.

Any member wishing to buy the News Letter can get same from the secretary for 10c a copy. It was then decided we continue with our branch notice in the News Letter directory.

The 1957 audit was presented and accepted. Mr. Bolton, being the installing officer, duly installed the following officers:

President, Mrs. Nora Goulding. Secy-Treas., Mrs. Ethel Kostelnik.

First vice-pres., Mr. E. Hill. Second vice-pres., Mr. Beddington.

New committees were as follows: Executive, Mrs. Hilda Caroe, Mrs. Kate Johnston, Mrs. Joyce Anderson, Mr. Tiffin, Mr. Toppo and Mr. J. Allan.

Entertainment, Mr. and Mrs. J. Rushton and Mrs. J. Derbyshire. Luncheon, Mrs. M. Antle, Mrs. Beddington, Mrs. Norma Lowe, Mrs. Smolik, Mr. Rodgers and Mr. J. Allan.

Auditors, Mrs. Jack Rushton and Mr. J. Allan.

Press correspondent, Mrs. Evelyn Jones.

The president gave her thanks to all the officers and committees for a job well done in 1957.

Mrs. Agnes Derbyshire was then wished a happy birthday; all the members singing "Happy Birthday".

The new members were welcomed by the president and members. The secretary reported 110 members were paid up to date.

The meeting then came to a close in the usual way.

A very nice program was then given which included two piano-forte solos by Miss Darlene Korman, appointed queen of the Crows Nest Pass for the Banff Carnival and two piano accordion solos by Mr. Steve Vrykovic and two violin solos by Mrs. Nelson, to which Mrs. Snowden accompanied her on the piano, also a tap dance by Miss Constance Marconi and a lute dance by Miss Jackie Lant and several vocal solos by Mr. Richard Chernenko, all of which were enjoyed by all the officers and members.

Then a lovely lunch was served by the lunch committee which everyone enjoyed. Any new members who would like to join our association we will be most happy to welcome them.

Evelyn Jones,  
Press Correspondent.

## Four Coleman Skips "BEAT" by Novices

Stacked rinks appear to be the easy ones to beat.

Or so we are informed—as it appears they all want to skip at the same time.

The latest stacked rink to go down to defeat was the Randy Kulig rink comprised of Kulig, skip; Joe Kovalk, third; Adolph Trost, second, and Steve Kublika, lead.

The winning team was Ernie Belik, skip; along with Nick Hachuk, "Tweet" Ondrik and Mike Kulig.

The winners stated that if they had played much in the last ten years they would have doubled the score at least. As it was they were satisfied with the 10-3 win.

The ice was in excellent condition and there was no excuse for anyone. If last Saturday's game is any example of how the game is played, there is even a chance for an old crock.

## Town Crews Building Rock Retaining Walls

Town crews in Coleman under the supervision of town foreman John Klinear, are doing an excellent job of building a rock wall around the base of the sharp curve at the east end of the street in Coleman leading to the Blairmore road and east Coleman. The work is greatly aiding winter employment.

Rock for the work is being obtained from the rock cut being widened and sloped down by the department of highways on 4th St., which is Highway No. 3. The rock from this cut breaks off in large flat square blocks and is good for cribbing and building retaining walls.

The town has undertaken to use the rock for many such purposes such as cribbing and building a rock wall along the course of the small creek through the town park.

The rock wall not only affords an excellent channel for the creek waters but adds greatly to the appearance of the town park.

**Retaining Wall**  
Building of a rock wall around the curve on Blairmore road is also a great improvement as the structure will act as a retaining wall, catching boulders and rocks that fall from the hillside onto the road and create a hazard for motorists.

A culvert will also be built between the base of the rock wall and the highway which has always been clogged up with stones and debris falling from the steep hill.

The rock from the large cut on the highway is being used to great advantage in many parts of the Pass as it is being hauled by truck to weak spots along banks of rivers in the area and used for rip rapping purposes. When work on the cut is completed a pedestrian walk will be built along the cut for people living to the east along Highway 3.

## Selkirks Take Second Money At Fernie

Cranbrook Selkirks were second place finishers in Fernie's 3500 Club third annual hockey tournament, being nosed out in the final game by the Lethbridge Allstars 7-5.

Three games were played in the four team tournament with nearly 2500 fans witnessing the games.

In the first game the Selkirks downed the Coleman Grands 7-5 in a rough and rugged fixture to gain vengeance for a loss a few nights previously and advance to the Saturday evening final. The Allstars took the second game victory over the Fernie Rangers 5-2 to set the stage for the Lethbridge-Cranbrook final game.

The final saw a close game in the early stages with both clubs turning on the power in spots. Toward the end of the first frame Lethbridge rapped home three quick markers for a substantial lead which forced the Selkirks to make an uphill battle.

They closed the gap to one goal in the second period but Allstars came back strong to regain a three goal cushion.

Selkirks outscored the prairie squad in the final period, but the lead was too great to overcome.

The trophy for the most valuable player in the tournament went to Tom McLean, defenseman for Lethbridge, with Selkirks in the running, being Harvey Nash, Brian Casey and Moose Ronquist.

## St. Alban's W.A. Elect Officers

At a recent meeting of the St. Alban's W.A. the new officers to head the club for the 1958 season, were elected.

Those chosen were: President, Mrs. C. Clarke. Secretary, Mrs. E. Howard. Treasurer, Mrs. E. Krywolt. Education secretary, Mrs. F. Dykes.

Social Services secretaries, Mrs. R. Patterson and Mrs. W. Purvis. Plans were made to hold the annual St. Patrick's tea and home baking sale on Friday, March 14th from 9 to 5 p.m. at the home of Mrs. G. Montalbetti.

## Bowling in January

The above picture shows Canadian Legion lawn bowlers in action on the 11th day of January, here in Coleman.

From left to right are: Dave Pow, scorekeeper, Pep. Oliva, Irish Mullens and Jim Rudley. Not shown in the picture is Randy Kulig, who is making his last shot.

## HUNDREDS TURN OUT FOR BIG SNOW FROLIC AT BLAIRMORE (Courtesy Lethbridge Herald)

**BLAIRMORE, Alta.** — Miss Darlene Korman of Coleman, was crowned queen of the Crows Nest Pass Winter Carnival in a colorful and impressive ceremony held in Blairmore arena.

The arena was well filled for the occasion that saw reigning Queen Marion Blake of Blairmore crown the new queen. Miss Korman was sponsored by the Crows Nest Pass band and won out over Miss Karen Hays of Blairmore, sponsored by the Crows Nest Pass Ski Club and Miss Yvonne Grubisch of Sentinel, sponsored by the Coleman high school.

Miss Korman will leave here Tuesday for Banff chaptered by her mother, Mrs. M. Korman, where she will represent the Crows Nest Pass at the Banff Winter Carnival.

**Started Friday**  
The carnival week-end got under way here Friday evening in the Blairmore arena, when carnival chairman R. H. Morgan welcomed the many visitors and introduced the three queen candidates, and reigning Queen Marion Blake.

Mr. Morgan introduced Mayor Frank Aousaff of Coleman, who in his opening remarks pointed out that although circumstances caused by lack of snow were handicapping the winter carnival, the Blairmore Board of Trade are to be admired for their determination in going ahead with the carnival week-end. He commended the time sportsmanship being shown by the queens in their contest and in closing extended the best wishes of Coleman, and its citizens, to Blairmore with their winter carnival.

William Jalley, the next speaker representing the town of Blairmore, welcomed all the guests and visitors. He said the town council had done all possible to try to get snow, but they just couldn't cope with the weatherman. He then added that in spite of having to cancel some of the highlights of the carnival that the Board of Trade had done a splendid job in filling in for the winter carnival week-end.

A broom ball game was held between members of the Blairmore and Coleman boards of trade, which saw the visitors defeat the Blairmore team 2-1.

The fast and furious game was highlighted when a gaily costumed natador and his pet bull entered the arena and with the broomball game in full swing and a bull fight being staged, the large crowd was well entertained. The bull fight was supplied by members of the Blairmore Lions Club.

Following this event a pee-wee hockey game between Michel and Blairmore saw the visitors beat Blairmore 3-1 in an excellent brand of hockey. To conclude the evening a dance was held in the Blairmore Elks hall sponsored by the B.P.O.E.

On Saturday morning the curling clubs first of two 1000 bonspiels was begun which saw 16 rinks participate with the Morrow rink of Lethbridge winning out over the Phillips rink of Lethbridge. Entered in the 'spiel were three rinks from Blairmore, three from Coleman, one from Fort Macleod, three from Lethbridge, one from Picher Creek, three from

## Record Crowds Fails To Take Big Jackpot

Despite the crowd of close to 500 that filled the Elks hall on Friday evening, no one was able to take home the large \$140 bingo jackpot.

Elks as well as bingo fans were really surprised when the money did not go in 61 numbers. This means at the next bingo night on Friday, February 21st, the jackpot will be \$150, one of the highest ever and must be won in 62 numbers or less.

The sale of extra cards, half of which proceeds were donated by the Elks to help one of their members, Henry Raymond, who is under medical care in Toronto. Mr. Raymond will receive \$75.

Other lucky winners for the evening were:

Groceries, Mrs. M. Mokasek, Bellevue.

Comforter, S. Regatta, Bellevue.

Luggage, A. Hurtak, Bellevue.

TV chair, K. Snowden.

Rod and reel, Judy Roughhead.

\$72 six number bingo — no winner — this makes this prize \$78 at the next bingo.

\$25, Mrs. E. McCullough.

Groceries, M. Corneal.

Sheets and pillow cases, Mrs. M. Mayochuk.

\$20 merchandise, no winner. Consolation winner in this was F. Herliet.

Bicycle, S. Castellano.

Trill-light lamp, F. Kutcher, of Frank.

\$25 gas, R. Lepaski.

Consolation winners were H. Caroe, E. Ash, Mrs. Cozzi, Mrs. P. Dunford, Mrs. W. Mottell and F. Fraser.

The Elks sincerely thanked everyone for their attendance and for the wonderful response to their extra card sale.

## D.R.O.'s Appointed For Pass Area

The Deputy Returning Officers have been appointed in the Pass area for the forthcoming federal election to be held March 31.

Polg. Div.

26—Burns, Mrs. J. J. Cameron.

27—Hillcrest — Mrs. C. McDougall and Mrs. M. Youngberg, if required.

28—Blairmore North — Mrs. F. Mickles.

29—Blairmore West — R. Deaoust.

30—Blairmore Southeast — Mrs. W. Lamey.

31—Blairmore southwest — Mrs. C. Fabbro.

32—Carbondale — Mrs. P. Snowden.

33—West Coleman — Mrs. A. Vasek.

34—Coleman Centre West — Mrs. M. Klinear.

35—Coleman Centre East — Mrs. N. Goulding and Mrs. C. Cornett if required.

36—East Coleman — Mrs. S. Mraz.

37—Frank — L. Margetak.

38—North Bellevue — Mrs. V. Venier.

39—Bellevue Central — Mrs. I. Koentges.

40—Maple Leaf — Mrs. O. Jillian.

Other appointments for election helpers will be given in the next few days.

## Selkirks Cinch League Title, Lead In Scoring Race

Latest statistics for the A.B.C.-M. Hockey League released recently show Cranbrook as league leaders and certain league winners and also two Selkirk players, Andy Drobot and Brian Casey well ahead in the scoring race.

With first and second spot clinched for Cranbrook and Coleman, the race now will be between Fernie and Great Falls for third place.

Drobot leads in scoring with 36 points, and Brian Casey second with 30 points.

Grubisch were also awarded gifts. Following these ceremonies, the parade re-assembled and marched off of the ice to music of the Crows Nest Pass band.

The hundreds of persons present then enjoyed a hockey game between the Michel bantams and the Blairmore bantams. The fast and well enjoyed game was won by the Michel team who scored nine goals to Blairmore's four.

## Mine Officials Ask For Action

Executive officers of United Mine Workers of America, District 18, decided last Friday on asking the Federal government for immediate action to alleviate the present coal mining situation in Western Canada.

The executive board of District 18 views with concern the closing of mines in Western Canada and layoffs of major proportion causing serious unemployment situation which they consider an emergency. Kindly wire reply by return and advise if your government intends to relieve present situation by opening markets through increased subsidies or application of tariffs on imported coal.

Mr. Boyd, commenting on the situation, said miners felt the time had come to take action instead of letting things slide in endless discussion, waiting for improvement of the economy.

**Imports Cut Wanted**

"Our members, many of them out of work for a long time, need help now and not talk about return of prosperity. We miners cannot understand why the government does not cut U.S. coal imports at a time when the U.S. government is cutting Canadian oil imports and is taking other measures hurting our economy," he said.

Miners here were disappointed the government had not taken action earlier to reduce unemployment. District 18 requested action in October, 1957, anticipating development of an emergency. Had the government heeded the warning of the organization, the crisis could at least have been avoided. If action was not taken now, sections of the industry here were threatened with extinction.

**Protest Policy**

Miners were protesting government policy permitting continuance of large-scale U.S. coal imports, amounting, according to latest available figures, to about 23,000,000 tons in 1956 alone.

Miners caught in a depression and existing in many instances on subsistence level were requesting through District 18, an import cut of at least 2,000,000 tons a year and placing of orders amounting to this quantity in Western Canada, he explained.

At the close of the conference the executive board of District 18 resolved to call a special meeting of the organization to be held in Calgary April 14th to consider further action to be taken by western Canada's miners to combat the crisis, he announced.

The board authorized District 18 officers to continue in their efforts to alleviate the situation.

There are about 2,000 of the 6,000 district membership unemployed on or part time work and further lay-offs are expected.

## Mine Layoffs Continue in Coleman

It appears that the orders of the week are being laid off as fast as this week another batch of men were laid off from the workings of Coleman Collieries.

The continued decline in demand for coal has all but closed the mines in this area.

There appears no solution at the present time for any improvement to the serious falling-off in the coal market. The mild weather that has been favoring the western area has not helped the industry.

There is one slight hope left and that is the demand for coking coal required by Japan and which western Canada mines could supply.

This possibility is being seriously investigated by the government and coal operators.

One way of combatting tuberculosis and all other respiratory diseases is to cover the nose and mouth when coughing or sneezing.

## Of Many Things (By Ambrose Hills)

### Hypocrites

While Maclean's magazine does not carry the weight it used to do in our home, we still enjoy it and subscribe to it, so we cannot help but notice that it publishes a great deal of liquor advertising. Presumably many Albertans continue to subscribe to Maclean's, and it is not likely that they close their eyes, when those smooth, four-color liquor advertisements appear.

I wonder how many subscribers to Maclean's, Saturday Night, and other eastern magazines realize that publishers in Alberta are denied the right to accept liquor advertising? Indeed, they are not even allowed, now, to publish advertisements merely carrying the name of a liquor or beer manufacturer? Meanwhile, eastern publishers flood this province with outright sales pitches for a variety of brews. And such advertising must form an important part of their revenue or they would not risk the loss of subscribers they must incur among those who refuse to let liquor advertising into the home.

Revenue of various kinds has been denied to the weekly papers through government action of one sort or another. A great deal of national advertising now gets a low-cost ride on our government-financed CBC networks. Printing orders from governments are not nearly as lucrative as they used to be, now that governments themselves have become big-time printers. Surely this governmental ban on liquor advertising, when aimed at the weekly press while magazines continue to carry it, is totally unfair.

There may be some Alberta citizens who resent liquor advertising. But if they do, they resent it wherever it originates. They are not hypocritical enough to welcome it in fancy rotogravure or slick-paper magazines, while resenting it in much milder form in the home town paper!

This ban, then, can only lead one to the conclusion that there are a lot of hypocrites running Alberta affairs. Hypocrisy is sometimes costly as well as distasteful. Winnipeg was once the home of a splendid national magazine, but how could it hope to survive in competition with eastern magazines under a different set of laws?

There was no extensive pressure for this ban. If pressure came from the anti-liquor groups, it would have been fairly simple to prove that most such individuals subscribe to eastern magazines carrying forceful liquor advertisements. I have an aunt who hates liquor—but I notice that she never misses reading Saturday Night! She'd look pretty silly petitioning the government to ban liquor advertising in her home town paper, wouldn't she? About 95% of those who want the ban are no doubt in a similar position.

## J. J. Bowlen Opens White Cane Week

It is a great pleasure for me to officially open the 13th annual observance of White Cane Week in Alberta. This week is set aside not only in our province but throughout Canada, to remind the sighted public of the significance of the white cane as a symbol of blindness and to create a greater public awareness of the problems and needs of blind persons.

The Canadian Council of the Blind and the Canadian National Institute for the Blind have selected "Prize Your Eyes" as the theme of the 1968 White Cane Week.

Over 2,000 Canadians lost their sight last year, many through accidents. Thousands more escaped blindness but suffered serious eye damage that will impair vision for the rest of their lives.

Proper lighting when reading, regular eye examinations and similar precautions could help preserve your eyesight.

During this special period of observance and during every week of the year, I would strongly urge that we give a helping hand to those who have lost the most cherished of senses. Take a few moments to safely guide a blind person across a busy intersection, and always be sure he is going in the right direction before you leave him. Keep sidewalks and passageways free of obstacles. Do not race car motors or needlessly blow your horn at

street crossings as such noises are startling to those who walk in perpetual darkness. Cyclists should always let a blind person pass in front of them.

By observing such simple, common sense rules of courtesy, we can make the world safer for the blind of our cities, towns and our villages.

J. J. BOWLEN,  
Lieut.-Gov. of the  
Province of Alberta.

## Plea For Idle B. C. Miners

—Made by U'phill.

VICTORIA, B. C. (cp) — The greatest indictment of the capitalist system in North America exists in Fernie, B. C. today, veteran MLA Tom Uphill (Ind.-Ferne) told the British Columbia legislature on Wednesday.

Mr. Uphill delivered an impassioned plea to the government to "do something" to relieve hardships in Fernie following closure of the Crows Nest Pass Coal Co. mine there. The company announced last week that the mine will close because of loss of markets.

Something must be done to alleviate the suffering that exists in the minds of 300 coal miners, thrown out of work by the closure, Mr. Uphill said during the throne speech debate.

Home of the miners will be transferred to the company's plant at nearby Michel, but not all of them can move because 147 miners living in Coleman, Alta., also work there, he said.

Mr. Uphill said the Alberta government should see to it that at least 147 of the Fernie miners are paid their usual salary, since that government is benefitting by the wages the Coleman miners earn in B. C.

"It's their duty, their responsibility to see that these men get the same amount of money as if they were able to continue working," he said.

## Peppy comes home after 15-day trek

BRACHBURG, Ont. (cp) — It took Peppy a black and white colie 15 days to travel 28 unfamiliar miles but he found his mistress. Mrs. John Bingley and her two young sons were taken to hospital, after their car overturned near Rankin, 28 miles from here. The dog, trapped in the wreckage, would not let anyone touch him.

Mrs. Bingley was released from hospital the same day and returned to the accident scene. The car and Peppy, were gone. The Bingleys had lived in Brachburg only a short time and it was 15 days before Peppy found his way home, hungry and with sore paws.

## Volunteers form bush rescue unit

KENORA, Ont. (cp) — A bush search and rescue unit formed by volunteers in this area is ready to answer calls 24 hours a day to help anyone who gets into trouble.

With 30 members it is one of the few groups of its kind in Canada.

All 30 give up spare time to take courses in search and rescue work. Equipment for 20 men is stored at the district office of the Ontario Provincial Police. One or two police officers always accompany search parties.

There are no regular meetings, no dues and no sponsors. The unit has made no appeals for government aid and no public appeals for funds. The members have financed equipment purchased themselves, with some voluntary donations.

During the last year, the rescue group was called out seven times.

## Prairie weeklies aid ethnic groups

WINNIPEG, Man. (cp) — The efforts of Helge Pearson of Winnipeg are helping keep the mother tongue alive for about 200,000 Canadians of Swedish and Norwegian origin.

Mr. Pearson is publisher of the Swedish and Norwegian language weeklies Canada - Tidsningen and Norrona.

The earliest copy of Tidsningen is dated 1892. Although it is marked volume six no earlier editions have been found. Norrona was founded in 1910.

Mr. Pearson came to Canada in 1927 at the age of 16 and spent summers working on grain elevators.

Winters, he was an apprentice in the publishing plant he now owns.

The Scandinavian community he serves has a long history in Manitoba. Michael Heden and Jacob Pahlstrom were with Lord Selkirk's first settlers in 1812. Lieut. Elmar Holte, commander of the Hudson's Bay Company "fleet" on the Red River, died during the battle to Seven Oaks. The first Swedish Church in Canada was established in Winnipeg in the 1870's.

## 'Snow Worm' appears prior to Snow Fiesta

KIMBERLEY, B. C. — Heralding the approach of the forthcoming Kimberley Centennial Snow Fiesta the "Snow Worm" made a public appearance after a long liberation. Residents of Kimberley were credulous at the antics of this huge animal.

He was seen cavorting around town with glee at the thought of the coming events. It is thought that this animal has been preparing to make his home in the Ice Palace built by the local firemen.

Earlier this year residents of Nelson reported that the "Snow Worm" was viewed in their fair city. After a long tortuous journey the "Snow Worm" found his way back home in time to help the residents of the East Kootenay celebrate Kimberley's Centennial Snow Fiesta this February 14 - 23.

## Letters To The Editor

To Hike Across Canada  
Box 243, Rawdon, Que.,  
Feb. 3, 1958

The Editor,  
The Journal,  
Coleman, Alberta.

Sir:

Will you be good enough to publish the following with my name and address.

I am planning a hike across western Canada this year (1) to get the feel of the climate in different areas in order to find out which is most beneficial to my health; (2) to strengthen myself by walking; (3) to increase my knowledge and experience which may be useful for my living in the future. I am approaching my sixtieth year and am, in fact, just a young fellow trying to get along and prove that life begins at 60.

After "doing" a part of the Rockies the route I have in mind is as follows from Calgary via Lethbridge, Nelson and Spences Bridge to Vancouver.

I would like to get information and advice from your readers, chiefly as to accommodation. As my means are very limited I would prefer to stop at farm-houses which would seem to me most economical; at a pinch even a hay-loft would do. I expect to be on the road from morning until evening with a day's rest about once a week. It is possible I shall not walk all the way but it is essential that I hike sufficiently in each area to get a good sample of the climate.

I was turned down as unfit for World War I, accepted for World War II, and served about three years in Great Britain. I was not permitted to go to the Continent but was under fire in England.

Incidentally my obsession is to have a wild woodland garden along a rocky stream.

Yours sincerely,  
F. H. A. COLLINS.

## NO SOLUTION SEEN FOR ELK RIVER COLLIERY

VICTORIA, B. C. (cp) —There appears to be no solution to the closing of the Crows Nest Pass Coal Company operation near Fernie, the Labor Committee of the legislature was to learn Thursday last.

Officials of the company said the Elk River plant, 4½ miles from Fernie, was closing down purely because of loss of markets.

William Prentice, sales manager and secretary-treasurer of the company said the closing originally was planned for the end of January because "what we thought were excellent market prospects failed to materialize". One of the markets was in Japan, now being supplied by the coal mines in Washington State.

He said the completion of natural gas pipelines also had cut deeply into the mine's markets. The transition by Canadian Pacific Railway from coal to diesel engines was also a serious loss.

The company's plant at Michel can "produce all we need and then some," Mr. Prentice said.

He said inability to compete with Washington on a cost basis was partially due to the freight haul to the Coast and partly be-

cause the U.S. mines were supplying a lower grade of coal.

Mayor James White of Fernie, said the city faces disaster through the mine's closing.

He said 441 workers so far have applied for unemployment insurance at Fernie, 278 of them miners and the rest from connected industries.

About 50 per cent of all Fernie workers are connected with the mining industry, he said.

## Document recalls pioneer contract

EDMONTON, Alta. (cp) —Edmonton's first city commissioner came to Canada in 1875 with a promise to work for the Hudson's Bay Company for three years "with courage and fidelity" "by day or by night".

George J. Kinnaird laid in Winnipeg, Man., in 1875 and stayed there 10 years before coming to

Edmonton, still with the HBC.

His agreement with the company stated he would work the first year in Canada for 30 pounds, the second year for 40 pounds and the third year for 50 pounds. At today's exchange rates the total is about \$336.

He had one concession in the contract, but never used it. He was to be returned to Europe at company expense after the three years, and would not be required to work on the ship during the return trip.

The details of Mr. Kinnaird's contract with "The Governor and Company of Adventurers of England Trading into Hudson's Bay" are contained in a photostatic document that has been acquired for Edmonton's archives.

Garnet Kyle, city archivist, received it from Mr. Kinnaird's son, Kenneth. On February 28, 1900, Mr. Kinnaird left the company to become the town secretary for Edmonton. He then became the city's first commissioner and left civic service in 1911 to enter private business.

## "Tide Rips"

(By Jim Brahan)

This summer, as in preceding summers, long-distance swimmers have swam the length and breadth of practically every body of water, except the Atlantic and Pacific

Oceans.

The sport of marathon swimming has not gone unnoticed in the Royal Canadian Navy. Able Seaman Billy Connor, 19, a crewmember of HMCS Fortune, while on leave last summer, decided to try his hand at swimming the length of Lake Memphremagog—the distance from end to end of this lake is 32.8 miles.

The Canadian sailor began his swim at Newport, Vermont, and swam across the International Boundary to his home-town of Magog, Quebec. He completed the swim in 18 hours and 50 minutes.

The swimmer's mother Mrs. John Connor, a former championship swimmer herself, was in the boat which accompanied Connor during his swim. Occasionally Mrs. Connor would dive into the lake and swim alongside her son to give him encouragement during his test of strength and skill against a lake which had defeated any previous attempt to swim its length.

To impede the youngster's progress, violent thunderstorms churned up the lake during part of his swim, and for a great deal of the distance Connor swam blind. His goggles fogged up, and his eyes became blurred by the grease with which he had smeared on himself as protection against the coldness of the water.

After reaching the finish line nearly 19 hours after he had entered the water, he rested for only a short time at his home, and then was cheered through the streets of Magog by thousands of residents of the city and district in a parade of some 200 cars.

Like other bodies of water which had previously remained unconquered by people trying to swim them, Lake Memphremagog finally was defeated by a determined youngster, who refused to quit when faced by almost unsurmountable conditions.

## Alcoholism On The Increase

TORONTO, Ont.—Despite widely publicized new techniques for the combatting of alcoholism the number of Canadians who suffer from this disease has actually doubled over the last 10 years, a noted Canadian physician who specializes in treatment of alcoholics, states in Maclean's Magazine.

Writing in the February 15 issue of the magazine Dr. R. Gordon Bell, medical director of the Bell Clinic and Alcoholism Research Foundation in Ontario, reports that a reliable new method for discovering the total number of alcoholics in a community has shown that there are 80,000 odd cases of alcoholism today in Ontario. Even allowing for population increases this is double the rate per 1,000 people in 1946, Dr. Bell states.

The same increase, he is convinced, applies to the rest of Canada. And although the alcoholism rate is still marginally higher in the United States, the Maclean's article claims, the Canadian rate is moving to overtake it.

According to Dr. Bell little hope of reversing the increase is held out by recent improvements in the treatment technique. Another Ontario study, he writes "brought to light the fact that only seven per cent of the alcoholics in a particular area had sought any kind of treatment anywhere, including Alcoholics Anonymous."

At this time the disease is still more common among men than women "but the women seem to be struggling valiantly to close the gap," the article says. With so many men addicted "the annual cost to Canadian industry is anybody's guess, but it would be wise to assume that it is closer to one hundred million than one million dollars annually."

So far "very little has been accomplished in treating the problem as a whole and absolutely nothing has been accomplished in prevention," the Maclean's article asserts.

## New use for zinc, copper

Of considerable interest to the Canadian mining industry was the announcement recently of a new use for zinc and copper which could take substantial tonnages.

The Ford Motor Company has installed major equipment in their Monroe plant and plan to make the first use of a new "white brass" bumper plating process.

White brass is an alloy containing zinc and copper in a two-to-one proportion. Its use as one of the plating components for bumpers gives improved appearance and better wear and corrosion resistance. The development of another new use for these two metals and one with an interesting potential is welcome at this time of over-supply of most non-ferrous metals.

## Mild Weather Ends In Pass Area

The wonderful spring-time weather experienced throughout the Pass this winter has come to an end at least for the time being.

Cold winds and zero temperatures have sniped the area for the last week. Snow is quiet heavy in the higher reaches of the mountains, but lower down only a slight covering of less than a half inch is visible.

Highways in the Pass are in fine shape and free of ice. West of Coleman by the Crows Nest Lake the snow is about four inches thick. The cold weather is not expected to last long.

Tuberculosis is most easily cured in the early stages when there are no signs of disease.

## DEPARTMENT OF HIGHWAYS

The construction and maintenance of Alberta's roads is a difficult and expensive task due to the vast distances covered and the extremes of both summer and winter climate. The upkeep of an efficient means of transportation is vital to the economic life of the province. Alberta's trucking industry, operators of bus and school van lines ask for better surfaced roads and highways while farmers ask for better roads to established markets.

The construction and maintenance of main and secondary highways and the licensing and registration of motor vehicles, operators and chauffeurs is the responsibility of the Department of Highways.

### SURVEYS BRANCH

The Alberta Surveys Act and the Surveys and Expropriation Act are administered by the Surveys Branch. Land required for the construction of highways and other roads and for the Department of Public Works are surveyed by this branch. It arranges for compensation for lands required for highway construction and damage to personal property arising out of such construction. All plans for roads, townships, subdivisions and townships are arranged by the branch and examination and approval of such plans is required. An accurate record of plan and maps is prepared and preserved. Permits for all rights-of-way for oil and gas, water, sewer and power transmission are issued by the branch after examination of plans for such projects.

### MAINTENANCE BRANCH

The upkeep and repair of main and secondary highways, construction and maintenance of district highways and roads, in improvement districts, are some of the duties of the Maintenance Branch. Where assistance in the form of government grants is given for construction of roads in counties and municipal districts this branch supervises such construction. Early construction and maintenance, snow removal, repairs to highway surfaces, centre striping, bridge and culvert repairs, repaving, section of warning and railway crossing signs and traffic census are handled by the Maintenance Branch.

### MOTOR VEHICLES BRANCH

The Vehicles and Highway Traffic Act, The Motor Vehicles Accident Indemnity Act, The Public Service Vehicles Act and portions of other acts involving the purchase and sale of motor vehicles are administered by the Motor Vehicles Branch. The registration of all types of motor vehicles, drivers and chauffeurs is the responsibility of this branch. Issuing of regulations covering the operation of commercial vehicles in the province and The Public Service Vehicles Act administration are the duties of the Highway Traffic Board.

Other services of the Department of Highways include The Bridge Branch, The Construction Branch, The Locations Branch, The Accounts Branch.

## Personalities IN THE NEWS

Mrs. H. Pownell has returned from visiting her daughter Margaret in Edmonton, who is convalescing from an emergency operation she underwent on Christmas Day.

Mrs. L. McLeod of Calgary, was a Coleman visitor over the week-end.

Mr. and Mrs. Darrell Huffman of Wabamun, Alberta, are the proud parents of a son, Cary Darrell, born at the Royal Alexandra Hospital, Edmonton, on January 29th. Mr. and Mrs. C. Huffman of Coleman are the grandparents.

Mrs. C. Huffman has returned from Wabamun, Alberta, where she visited with her son and daughter-in-law, Mr. and Mrs. D. Huffman.

Mrs. Dorothy Grant of Calgary, was visiting at the home of her son-in-law and daughter, Mr. and Mrs. Hugo Civatresse of Hillcrest, where she was pleasantly surprised on the occasion of her birthday last week. Many of her former Coleman and Hillcrest friends were present. After a delicious buffet lunch, Mrs. Grant was presented with a gift from all, for which she expressed her thanks and also her pleasure at being among so many of her friends.

The Ladies' Auxiliary to the Canadian Legion will hold their bazaar sale in Dutil's Hardware on Friday, February 21st from 10 to 12, and from 1:30 to 5 and not on February 22 as earlier reported.

Mr. and Mrs. J. Misson of Calgary, visited over the week-end with their son and daughter-in-law, Mr. and Mrs. G. Misson and other relatives and friends in Coleman and Blairmore.

Mr. Joe and Irwin Spievak and Mr. J. Szulz recently visited Mr. J. Spievak, sr., who is a patient in the Holy Cross hospital, Calgary.

Miss Virginia Tiberghien of Calgary and Mr. Al. Tomlins of Cranbrook, were the week-end guests of Mrs. V. Tiberghien.

Mrs. Russell Vincent, now residing in Calgary, recently suffered a fractured foot, friends are pleased to report that she is getting around again.

Mrs. L. Richards is spending an indefinite holiday with her son-in-law and daughter, Mr. and Mrs. Ross Foster at Calgary.

Mrs. J. Derbyshire attended a birthday dinner in honor of her granddaughter, Miss Francis McKay, at the home of her parents Mr. and Mrs. F. H. McKay at Blairmore on Sunday. Miss McKay is on the teaching staff at Claresholm.

Matthew Hanrahan entertained 15 of his school mates on Feb. 10th at a party, the occasion being his 8th birthday. Games and contests were enjoyed after a lovely supper served by his mother with the usual candle decked birthday cake. All joined in singing "Happy Birthday Mat."

Miss Evelyn Nienmeyer has completed her Nurses Aide course and has been posted to a Camrose hospital.

Mr. Jack Simpson of the Dept. of Public Works at Fort Macleod was a visitor here last week.

A subscription renewal to The Journal was recently received from Mrs. H. Dixon of Calgary for her mother Mrs. T. Higginbotham, they wished to be remembered to all old friends here.

Mr. Bill Kosma is a patient in the Holy Cross hospital Calgary. Friends wish him a speedy recovery.

Mr. and Mrs. T. Holstead accompanied by Mr. and Mrs. T. M. Brown of Pincher Creek were Calgary visitors last week, the guests of the formers daughter and son-in-law Mr. and Mrs. H. Pharis.

Mrs. W. Field and Mrs. W. Kinnear were Lethbridge visitors last week.

Mr. J. Hanrahan was a visitor at Calgary last Thursday.

### First Coleman Cub Pack News

(Column by Kenneth Murdoch)

After a cub receives his first star he is eligible to try to pass any Proficiency Badge test. To get a Guide Badge you must give the cubmaster the proper direction to his question which may be how to get to a certain place. He may also ask you the telephone numbers of the Fire Dept. or Town Office, and if you live in a hotel, how to work a fire alarm and where the nearest public telephone is.

Climatic neither causes nor cures tuberculosis. The disease is contracted in all climates and cured in all climates.

### Merchants Offer Prizes For Whist Drive

As an added inducement to turn out to the remaining St. Alban's whist drives the following local merchants, Holy's, Zak's, Freeman's Ltd., and Modern Electric, have offered to give 50c each for every table occupied over 20 tables.

The sum, whatever it may be, will be won by the party with the highest score, at certain periods during the evening's entertainment. This is a challenge to us all—the more tables over 20, the larger the prize will be.

The January whist drive had 19 tables, so make and bring your friends, and fill the Elks hall to capacity on Monday, February 18 at 8 p.m.

Don't forget, that besides, you have a chance at the progressive prize, highest and second highest ladies' and men's prizes, excellent food and a grand evening's entertainment.

Advance tickets can be bought for 50c at the Canadian Bank of Commerce or from Douglas Clark. Come and win the money from these community-minded business men. Through their generosity the evening will sparkle with sociability and the spirit of competition.

### Skiing In Canada

Skiing is Canada's greatest outdoor winter pastime, and a comparatively new sport on this side of the Atlantic. Since 1920 it has made gigantic strides in both the recreational and competitive fields. Today it claims upwards of 300,000 devotees.

The new Encyclopedia Canadana tells us that skiing was first introduced into Canada by settlers from Scandinavia.

Skiing in groups, they built small jumps and competed against one another. As Canadian interest in the sport grew skills were imported from Norway.

The sport was first seen in Ottawa in 1887 when Lord Frederic Hamilton, ADC, skied in Rockcliffe, near Government House.

Some years earlier the Montreal "Canadian Illustrated News" had published a woodcut showing a Mr. A. Birch, a Norwegian resident of Montreal, on nine-foot skis and carrying a long pole. It stated that he had skied to Quebec City, a distance of some 170 miles.

The first Canadian skiing clubs were purely ski-jumping organizations, but later they branched out to include cross country racing and recreational skiing.

In 1904 the Montreal Ski Club was founded and was followed by similar clubs throughout Eastern Canada in the early part of this century. The first ski tow was erected at Shawbridge, Quebec, in 1929. Today the population of Quebec is so ski-conscious that in some schools ski lessons have become part of the curriculum.

Skiing in this country became firmly established with the formation of the Canadian Amateur Ski Association in 1920 and since 1928 Canadian skiers have taken part in the Olympic Games. Lucille Wheeler won the first Olympic medal (bronze) for Canada in the women's downhill event in 1956.

Skiing history has been made by other Canadians. For many years Nela Nelson of Revelstoke, B. C., held the world's amateur jumping record with a jump of 224 feet. In 1954 at the age of 15, Miss Anne Heggqvist, of Ottawa, became the youngest winner on record in the giant slalom at Holmenkollen, in Norway.

Annual skiing competitions are held for the Canadian (CASA) provincial and zone championships.

There are also independent championships, one of the most popular of which is the Quebec - Kandahar, combining downhill and slalom, held at Mont Tremblant, Que.

This year the North American Cross Country Ski Championships are being held at Sudbury, Ont., this month with the North American Ski Jumping Championships being held at Sault Ste. Marie, Ont. also this month. The Dominion Senior Ski Championships are being held at Kimberley, B. C., on February 20 - 23 with the Junior Championships scheduled for Rossland, B. C., March 1 and 2.

S. JANOSYAK.
